

# PT HIKARI CIPTA INDONESIA

The Best Value comes from The integrity of Sucessful & Working Perfectly

IHI AUTHORIZED DISTRIBUTOR & SERVICE PROVIDER

# INTRODUCTION

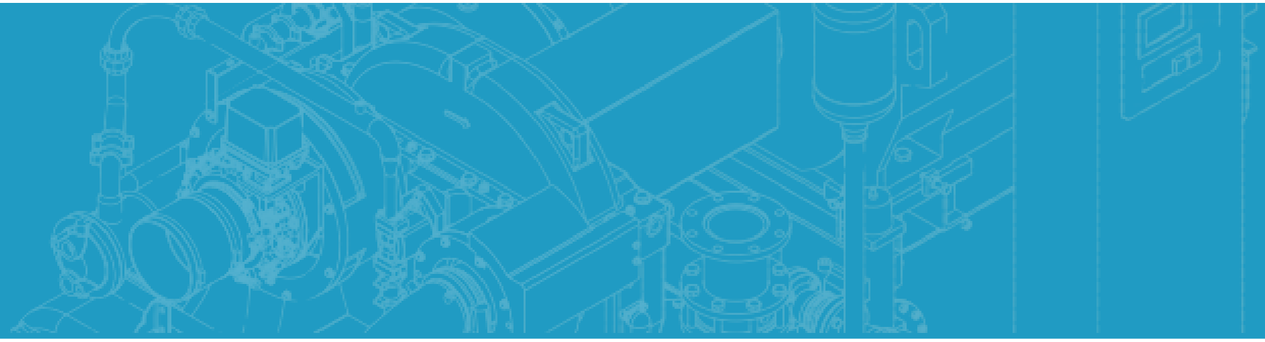

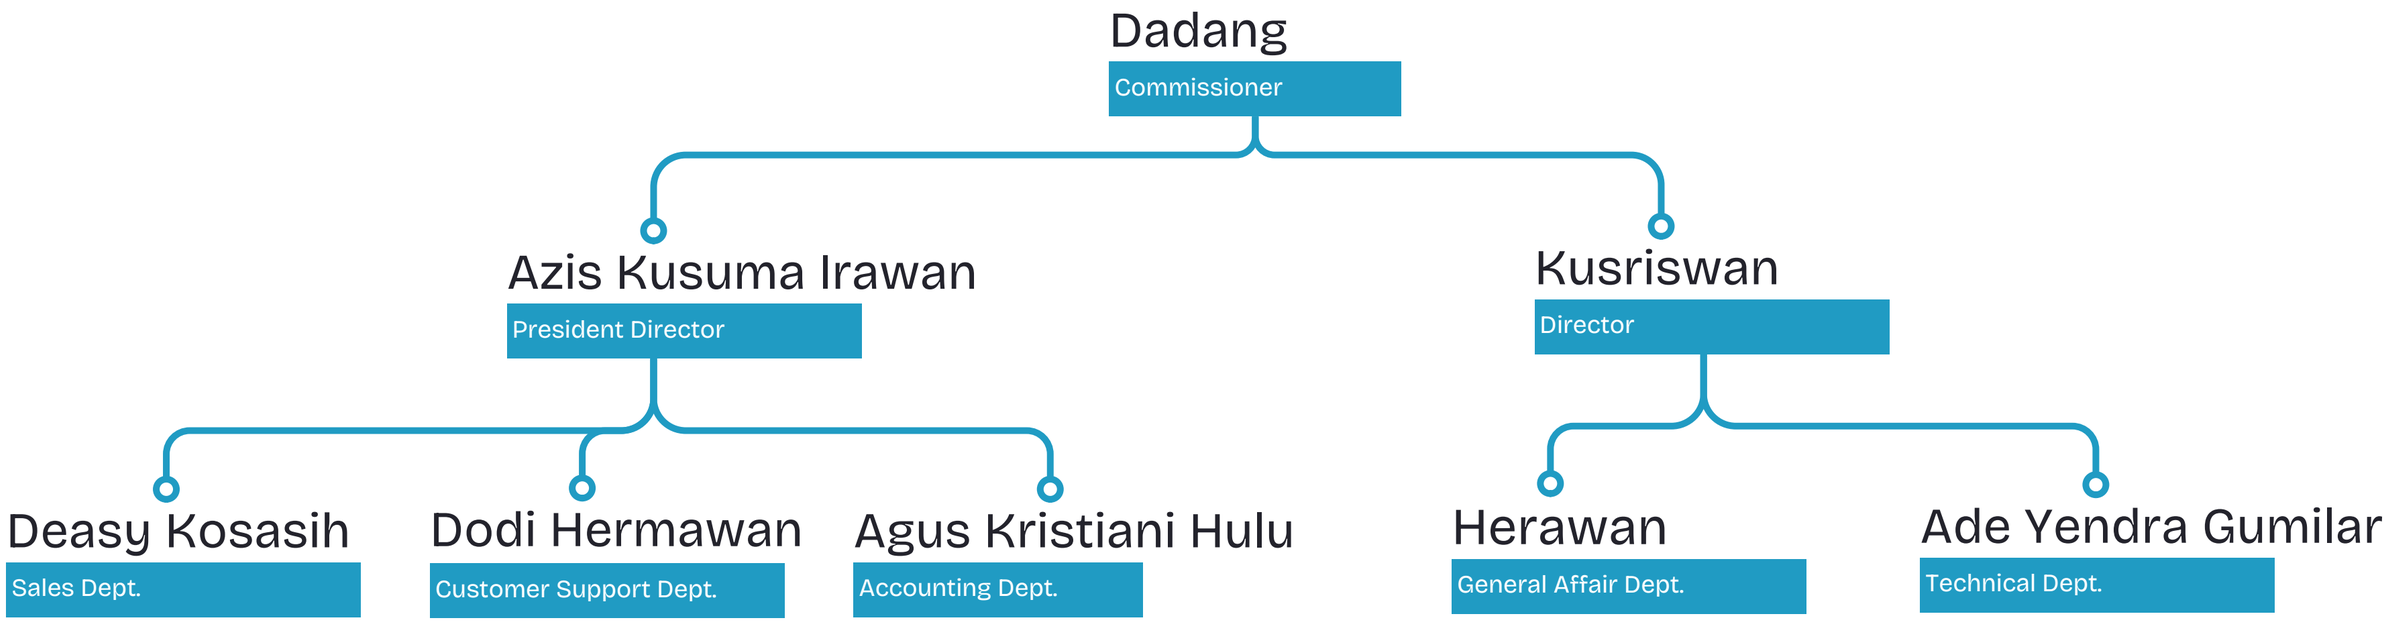

PT. HIKARI CIPTA INDONESIA— established in 2005 and based in Lippo Cikarang, Bekasi — is the authorized distributor and service provider of IHI Compressors in Indonesia.

We deliver complete air system solutions, including IHI Centrifugal Compressors, ORION Air Dryers, ORION Filters, ORION Auto Drains, and Industrial Boilers. Our services cover product selection, installation, testing, and after-sales support to ensure optimal system performance and reliability.

Backed by professional sales and technical teams, we prioritize safety, efficiency, and customer satisfaction, providing trusted solutions that enhance productivity and maintain long-term operational stability.

# OUR SERVICES

### Instalation Support

Our team of qualified technicians is available to assist with the installation of compressors, air dryers, and filters. We ensure that all equipment is set up correctly and operates at optimal efficiency.

### Performance Testing and Adjustments

We provide scheduled maintenance to ensure optimal equipment performance, including inspection, cleaning, filter replacement, and performance testing.

### Repairs and Troubleshooting

In the event of a malfunction, our skilled technicians are ready to promptly diagnose and repair issues, providing on-site repair services, access to genuine replacement parts, and technical support via phone or email.

### Warranty Services

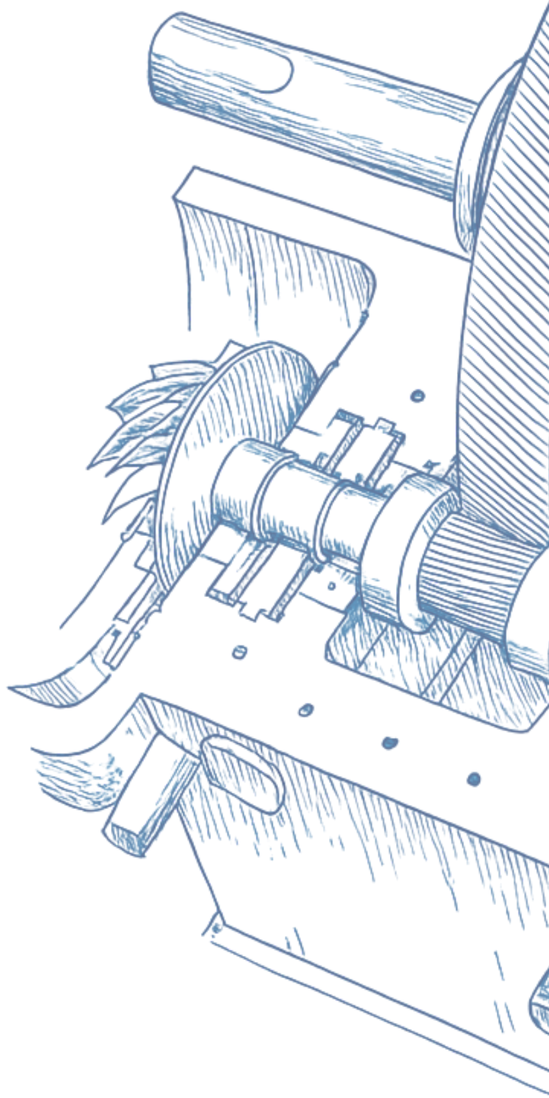

All of our compressors, air dryers, and filters are backed by a warranty, and our after-sales service is designed to manage warranty claims promptly, guaranteeing that you receive the necessary support without any unnecessary delays.

### Training and Support

We provide training sessions for your staff to ensure they are knowledgeable about the operation and maintenance of the equipment, covering operating procedures, safety protocols, and basic troubleshooting techniques.

### Emergency Support

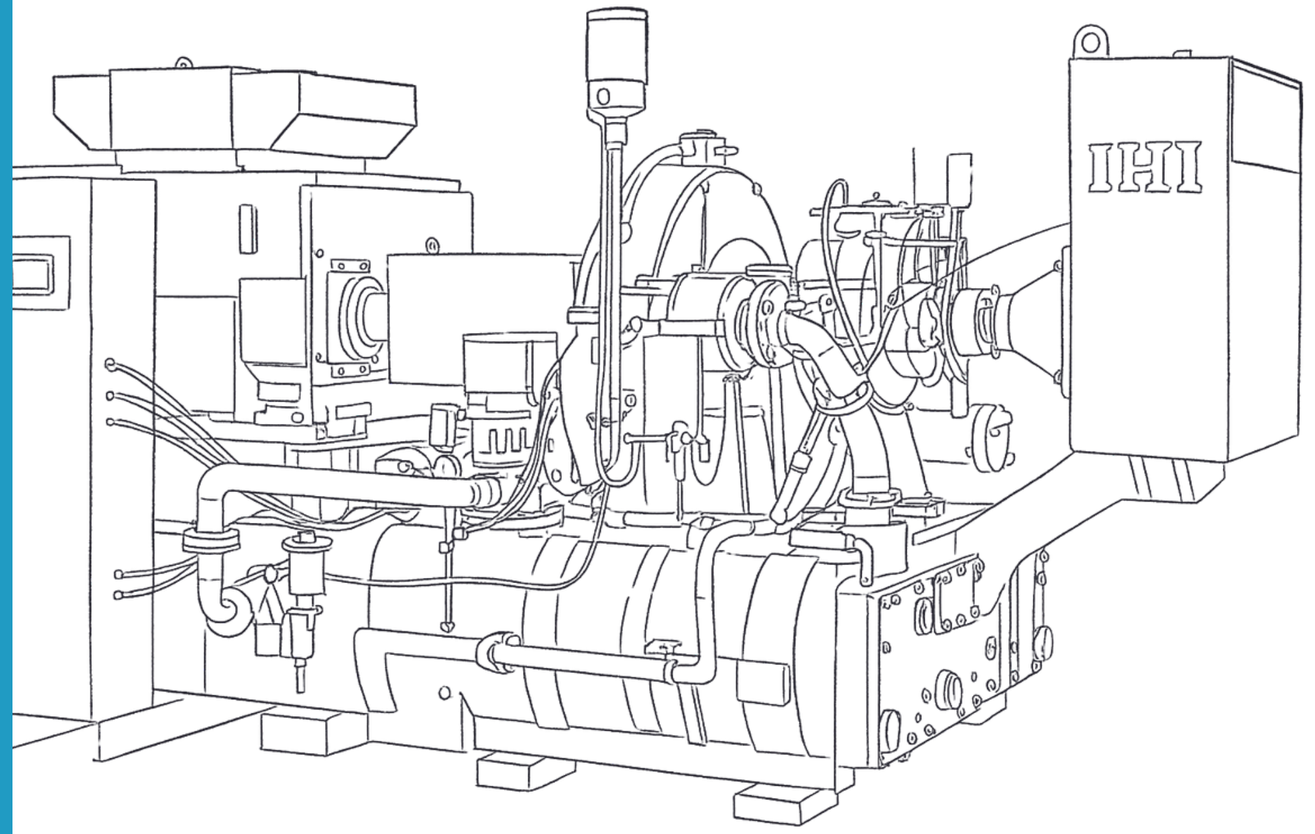

We understand that equipment failures can happen at any time. Our emergency support service is available 24/7 to minimize downtime and keep your operations running smoothly.

# OUR PRODUCT

## Centrifugal Compressor IHI

IHI delivers world-class turbo compressor technology that combines efficiency, reliability, and advanced engineering. As the authorized distributor and service provider, PT. HIKARI CIPTA INDONESIA offers an end-to-end solution — from product selection and installation to maintenance and energy optimization — ensuring seamless support for industrial compressed air systems across Indonesia.

# OUR PRODUCT

## Centrifugal Compressor IHI

- **T2 / T2A Series**

Two-stage centrifugal compressors designed for small to medium capacity applications. Compact, efficient, and suitable for general industrial air systems.

- **TRA / TRE Series**

High-performance three-stage models engineered for large-capacity operations, combining superior flow control with enhanced efficiency and reliability.

- **TRZ Series**

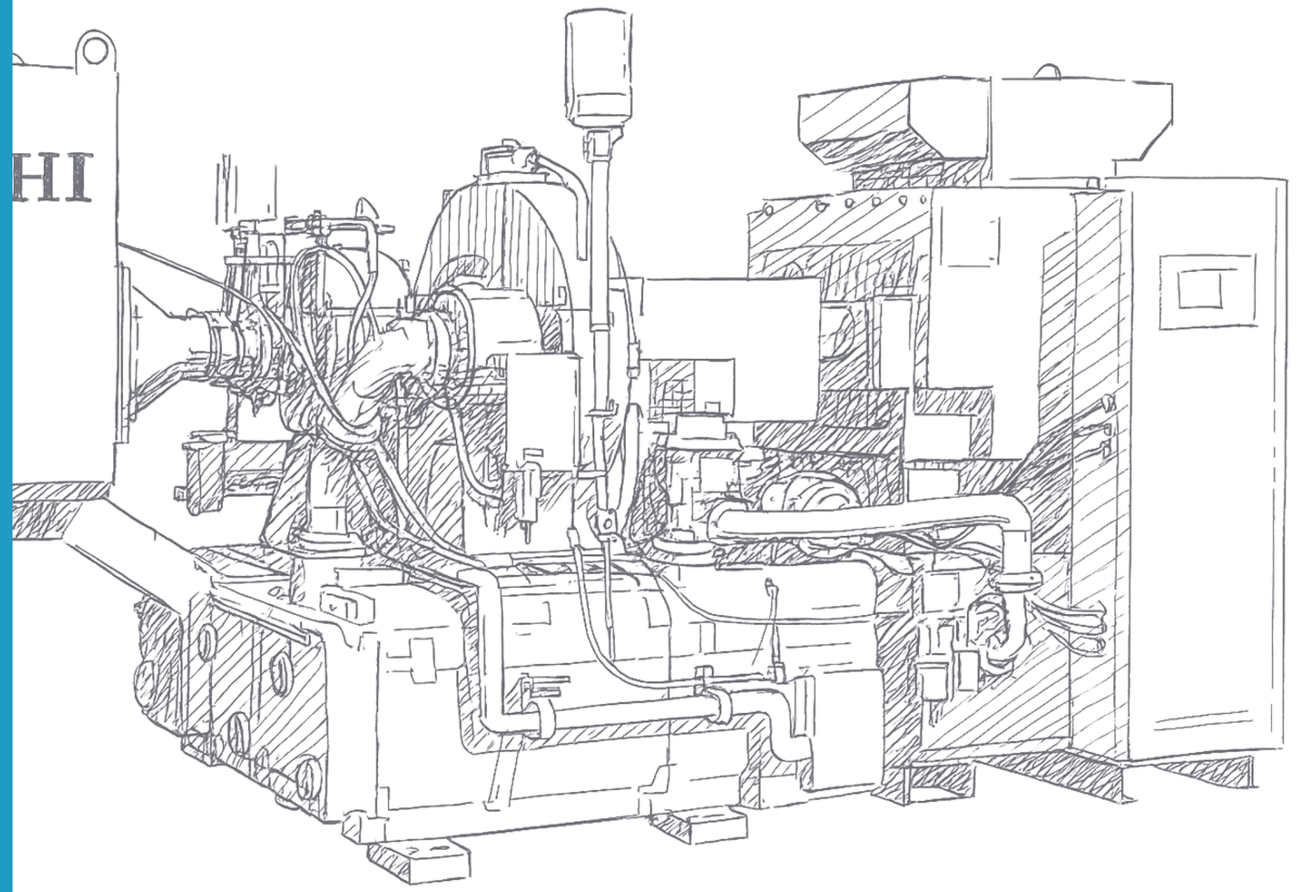

High-efficiency three-stage compressors designed for wide operating ranges. The TRZ Series delivers higher airflow and up to 3.5% improved efficiency, reducing energy costs and emissions while maintaining stable, reliable performance.

- **T3 / T3A Series**

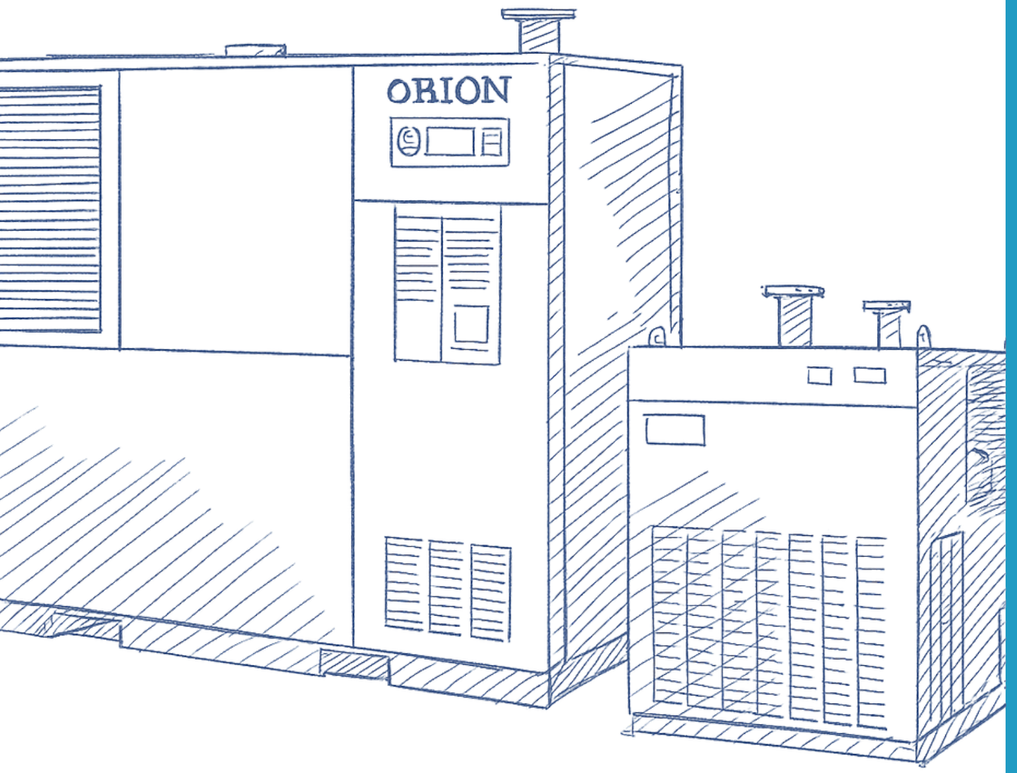

Three-stage compressors, optimized for stable and energy-efficient operation in medium-scale industrial environments.

- **TRX Series**

Heavy-duty three-stage compressors built for demanding industrial applications requiring high airflow and continuous operation. Constructed for durability and long service life under rigorous operating conditions.

# OUR PRODUCT

## Air Dryer ORION

ORION delivers a full spectrum of industrial air and temperature control solutions built on precision, reliability, and energy efficiency — enabling industries to maintain clean, stable, and sustainable production environments.

- **Air Dryer**

**Refrigerated Air Dryers** – Efficiently remove moisture from compressed air with precise dew point control, ensuring stable operation and reduced energy usage for general industrial systems.
**Desiccant Air Dryers** – Provide ultra-dry air through heatless or heat-regenerated systems, ideal for environments requiring continuous operation and high air purity.
C**ompact & Modular Dryers** – Space-saving and energy-efficient solutions suited for small to mid-scale manufacturing processes requiring clean and dry compressed air.

- **Air Filters**

**High-Precision Filters** – Remove oil mist, dust, and particulates to maintain optimal air purity and protect downstream equipment from contamination and wear.
**Multi-Stage Filtration Systems** – Combine multiple filter types to ensure consistent air quality, reduced maintenance frequency, and extended equipment lifespan.

# OUR VALUED COSTUMER

-

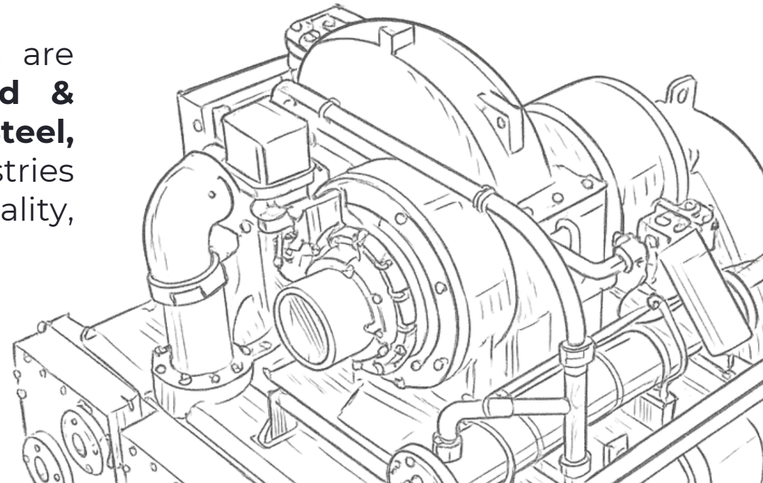

PT. HIKARI CIPTA INDONESIA proudly supports various key industries across Indonesia through advanced air compression and air treatment technologies.

By combining Japanese engineering excellence with responsive local service, we ensure each client receives reliable, efficient, and sustainable solutions that optimize production performance and operational stability.

Trusted by Leading Industrial Sectors :

- **Automotive**
- **Chemical**
- **Textile**
- **Glass**
- **Tire**
- **Fertilizer**

Furthermore, our technologies are also widely suitable for **Food & Beverage, Pharmaceutical, Steel, Fuel**, and other process industries that demand high air quality, reliability, and precision control.

# GALLERY

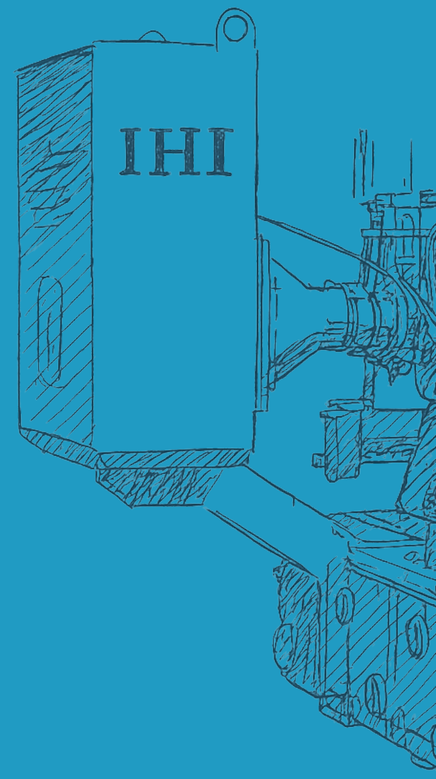

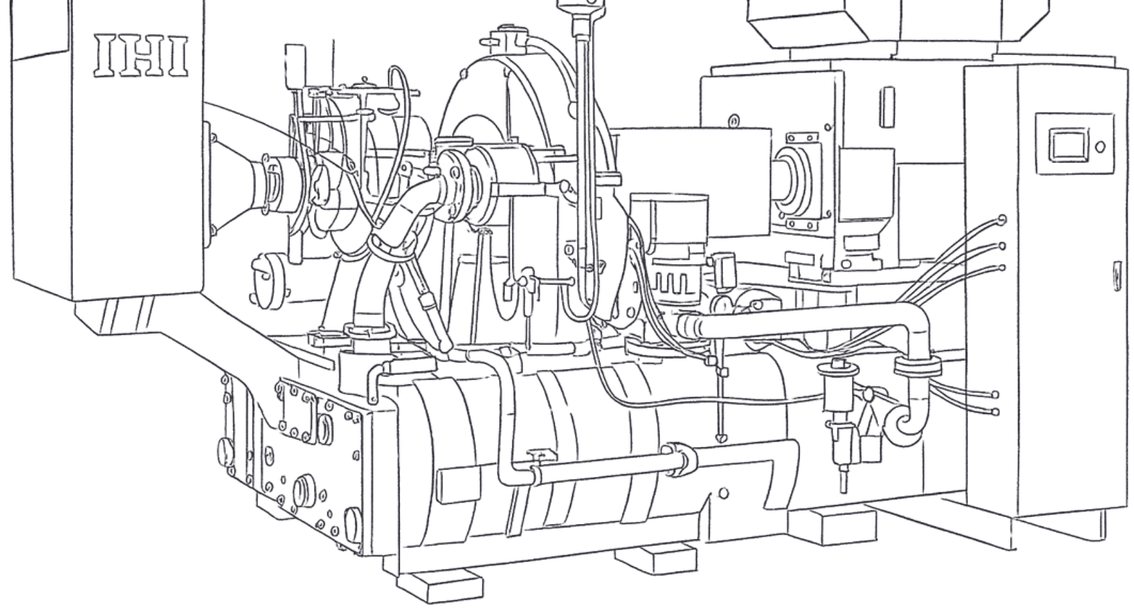

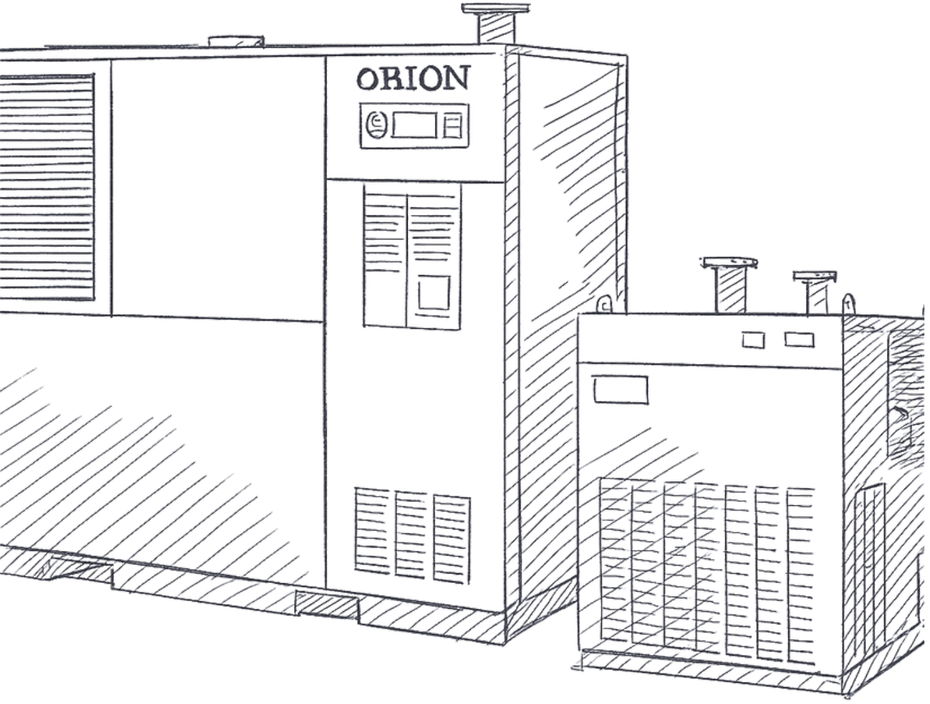

PT. HIKARI CIPTA INDONESIA (HCI) stands as a trusted industrial solution provider specializing in advanced air compression and air treatment systems. As the authorized distributor of IHI Turbo Compressors and ORION Machinery products, HCI delivers integrated solutions that combine Japanese engineering excellence with localized technical support — covering sales, installation, maintenance, and energy optimization services.

With a commitment to reliability, efficiency, and long-term partnership, HCI continues to support Indonesia’s industrial growth by ensuring clients benefit from high-performance, sustainable, and cost-effective systems. Through continuous innovation and dedicated after-sales service, HCI remains a dependable partner for industries seeking quality-driven compressed air and process technology solutions.
